## **PROTRANSPORT**<sup>M</sup>

## ProLogs GPS Integration Setup Guide

1. Click Administration.

2. Select Integrations.

**3.** Select **ProLogs** under the **GPS** tab and create your profile.

Please note: The ProLogs box should have a triangle icon signifying that action is required. If it shows up as a grey checkmark, please contact your ProTransport account manager.

 Enter your login information provided by your ProLogs administrator in the Integration Interactive Credentials pop-up box. Click Submit to save.

Cancel	Submit									

Please note: There will be a green checkmark next to PrePass to indicate your connection has been set up.

- 5. Click Safety and select Trucks.
- 6. Select Pro Logs as the GPS Type.
- **7.** Make sure your unit number matches the unit number from the ProLogs website. Otherwise enter the matching unit number under **GPS Device ID**.
